

Spring 2014 Project List

Exeter Highway Department Spring projects

- Street Sweeping: Highway crews are doing rounds of street sweeping as needed.
- Street Marking: Crosswalk painting in progress with DPW staff, long lines and other markings will be complete as well.
- Street Repairs: Highway crews are milling and patch paving all town roads.
- Storm Drain Repairs: Repairs to drain manholes and catch basins that were damaged by spring thaw and snowplows.
- Road Work: Highway crews are grading road shoulders and cleaning culverts
- Street Signs: Repair and replacement of street signs and traffic lights in progress
- [Paving](#)
- [Gilman Park foot bridge repair:](#)

Street Sweeping (as of 5/22/14):

The sweeper is working off of Kingston Rd and surrounding neighborhoods through next week. During the week of June 2 sweeping will begin in the Beach Hill area. Once the Beech Hill area is done the first round of sweeping will be complete for the entire town!

Gilman Park foot bridge repair:

The Gilman Park foot bridge deck was rotted and the supports needed extensive work in order to make it safe. Due to budgetary restraints the bridge could not be replaced, but a structural engineer evaluated the bridge to determine if our crew could repair it to make it last a few more years. The Highway crew worked on the bridge repairing the frame with steel reinforcing plates, added new support timbers under the bridge, and replaced the decking and repaired the hand rails. It is important to note that this was a very difficult project with limited budget funding.

Unitil Gas

(5/12/14) Unitil is replacing the last of their bare steel gas mains. They have two sections to do:

- 1) High Street Market to the bridge - to be complete Monday or Tuesday (6/3/14)
- 2) Buzzel to Drinkwater Rd - should only take 2 weeks (to be complete 6/20/14 est.)

Spring 2014 Project List

Published on Town of Exeter New Hampshire Official Website (<http://exeternh.gov>)

Neither project will require a detour, and traffic issues are NOT expected due to the locations of the two projects (side of road or in sidewalk).
